Daily Activities :

In the morning, I usually wake up and prepare my clothes, then grab a towel. Before taking a shower, I perform ablutions to prepare for my morning prayers. After that, I proceed with my shower and set out the makeup I plan to wear. Once I'm done with makeup, I choose the clothes and headscarf for the day. Then, I organize my bag, put on my shoes, and head to the station to go to campus.

After I arrive at University Pancasila Station, I tap out with my exit card and cross the zebra crossing to reach the campus building. I usually buy a drink at the canteen, and after that, I head straight to class for the course. Once the class is over, I have lunch while waiting for the next course. If the day's courses are finished, I sometimes hang out for a bit or usually go straight home. To get home, I usually take the train, get off at Bojonggede Station, and then connect with public transportation to reach the front of my housing.

When I get home, I put away my keys, open the door, and place my shoes on the shelf. Then, I store my belongings and wash my feet and hands before resting. After that, I change into my housecoat, have my afternoon meal, and tidy up. Before Maghrib, I take a shower and prepare for the prayer. Once I've prayed, I check my list of tasks, complete them, and clean my face. Then, I wash my face again, brush my teeth, and pray Isya. After finishing Isya, I apply my skincare and hand lotion, turn off the lights, and go to sleep.
